

starvars.StarVars.Decide
_StarVars

starvars.StarVars.Recursive_For

```
graph LR; A[starvars.StarVars.Recursive_For] -- self-loop --> A; A -- call --> B[starvars.StarVars.Decide_StarVars];
```

The diagram illustrates a relationship between two functions. A box on the right, labeled 'starvars.StarVars.Recursive_For', has a curved arrow pointing back to itself, indicating a self-loop. A straight arrow points from this box to a box on the left, labeled 'starvars.StarVars.Decide_StarVars'. The left box has a light gray background, while the right box is white.
